Since the last presidential election in November 2020, an estimated 3,564,232 voting-age adults have become newly naturalized citizens nationwide.

Of the newly naturalized citizens...

1,960,328
ARE FEMALE (55%)

1,603,904
AND MALE (45%)

Source: US Immigration Policy Center

1. Naturalization statistics are estimates based on data from the Department of Homeland Security. For the nationwide total, we impute missing data for FY2024 based on a 50-year trend in naturalizations using ordinary least squares regression to make a linear prediction with adjustments for outlier years.

2. Region-of-the-world distributions calculated using latest publicly-available DHS data from FY2022.
